About Me

I am a motivated and hardworking Information Technology student with a strong passion for programming and software development. I am currently a fourth-year IT student at Saint Paul Institute, with hands-on experience in web application development and network configuration. I have experience building practical systems, solving technical problems, and working on real projects. I am seeking an internship opportunity where I can apply my knowledge, gain real-world experience, and further develop my technical and professional skills.

Education

- Bachelor Degree of information Technology
SAINT PAUL INSTITUTE 2023 - Present
- Hight School
AngPrasdech High School 2019- 2022

Experience

- Web-based POS Application (Laravel)
 - Developed a Web-based Point of Sale (POS) system using Laravel, PHP, JavaScript, jQuery, Bootstrap, HTML, and CSS.
 - Implemented key modules including Stock Management, Purchase Management, Sales Reporting, User Authentication, and Role & Permission Management to improve system efficiency and security.
 - Designed and managed MySQL relational databases for reliable data storage and high-performance operations.
 - Utilized GitHub for version control and collaborative development workflows.
- Computer Shop Management System | Django
 - Developed a Computer Shop Management System using Python Django, HTML, CSS, and JavaScript.
 - Implemented features such as Product Management, Stock Management, Sales Transactions, and Customer Records.
 - Designed and managed the database using SQLite for efficient data storage and retrieval.
 - Built an admin dashboard to manage products, orders, and customer information.
 - Improved system usability with a responsive web interface for managing shop operation
- Room Management Mobile App | Flutter & Firebase
 - Developed a Room Management Mobile Application using Flutter and Firebase.
 - Built multiple application screens including:
 - Login Screen
 - Dashboard Screen
 - Customer Management Screen
 - Room Management Screen
 - Booking / Room Record Screen

Network Skill

- LAN, WAN, MAN Concepts
- OSI Model & TCP/IP Model
- Router and Switch Basic Configuration
- VLAN & Inter-VLAN Routing
- Networks Security Concept

Version Controll / Tool

- GitHub / GitLab
- Figma
- Firebase
- Postman

🧩 Soft Skills

- Problem Solving
- Communication Skills
- Time Management
- Collaboration/Teamwork

● Administrative & Technical Support Intern

General Department of Digital Technology and Media Education – Ministry of Interior Sep 2025 – Nov 2025 (End of 3rd Year Internship)

- Provided technical support for computers, printers, and network systems.
- Assisted in IT infrastructure setup and maintenance.
- Supported administrative documentation and team coordination.

Dear Sir/Madam,

I am writing to express my interest in an Internship position in Information Technology Software Development at your organization. I am currently a fourth-year Information Technology student at Saint Paul Institute, and I am eager to gain practical experience in a professional environment where I can apply and expand my technical knowledge.

During my studies, I have developed strong skills in web and mobile application development, particularly using PHP Laravel, Python, Django, Flutter, and MySQL databases. I have worked on several academic projects, including a Web-based POS system built with Laravel and mobile applications using Flutter and Firebase. Through these projects, I gained hands-on experience in database design, REST API integration, responsive UI development, and version control using GitHub.

In addition, I completed a three-month internship at the General Department of Digital Technology and Media Education, Ministry of Interior, where I gained practical experience in IT technical support, network troubleshooting, and maintaining office IT infrastructure. This experience helped me develop strong problem-solving, teamwork, and communication skills in a structured professional environment.

I am a motivated and hardworking student who is passionate about software development and technology. I am confident that my technical background, eagerness to learn, and dedication will allow me to contribute positively to your team while gaining valuable real-world experience.

Thank you for considering my application. I would welcome the opportunity to further discuss how my skills and enthusiasm can benefit your organization. I look forward to hearing from you.

Sincerely,

Mov VoReach
